

Directions to Sour Dough Pete #1 and #2
Vincent Creek
Tributary of the Middle Fork John Day River
44° 39' 58" N 118° 32' 05" W

From Sisters, take Route 126 East to Redmond. Continue East on Route 126 to Prineville. In Prineville, pickup Route 26 and continue East through Mitchell, Dayville, Mount Vernon, John Day, Prairie City and on to the Austin Junction. At Austin Junction, turn left onto Route 7 and go approximately 1 mile to Oregon Highway 20. **(This is NOT US Highway 20 that traverses the entire state from Newport to Ontario!)** Turn left onto Highway 20 and go approx. 2.6 miles to Forest Service Road #2010. Turn right onto FS 2010 which is a gravel road that parallels Vincent Creek.

Proceed to the cattle guard; continue onto the first good road to your left – Road #986. Turn left onto Road #986 (this is an intersection of three spurs – two of which are obliterated!) Follow #986 to an unlocked gate (this gate must be closed behind you at all times.) Have your gate pass letter with you at all times.

The first left after the gate takes you to a primitive camp area and turn-around. The second road to your left goes ¼ mile down to the creek.

CAUTION: Do not take a trailer down either road without checking it out first. There is no potable water on site but there is a flowing spring in Austin/Bates Junction where you can get fresh water.

Common Troy/Avoir. Weights and Conversions

480 grains = 1 Troy ounce
20 pennyweights = 1 Troy ounce
24 grains = 1 pennyweight
1 Troy pound = .8228571 Av. pounds
